## MBS DEV ANNOUNCES AVAILABILITY OF MICROSOFT AXAPTA FOR OFFICE SUPPLY DISTRIBUTORS

### *MBS Dev Collaborates with Microsoft to Provide Office Supply Distributors a Tier-1 solution at the price of a Niche software competitor --*

**Broomfield, Co—June 9, 2005** - MBS Dev Inc., a leading Value Added Reseller (VAR) and Independent Software Vendor (ISV) of Microsoft® announced the availability of its new Axapta – Office Supplies Vertical Extension (OSVE™). MBS Dev has teamed up with Microsoft Business Solutions to deliver industry-specific functionality within the Microsoft Business Solutions – Axapta® product resulting in MBS Dev's new Axapta - OSVE.

The MBS Dev Axapta - OSVE puts forward to office supply companies an all-in-one solution, one business logic, one database, one set of tools and one source code. This solution offers functionality that includes: executive workstation, order management, customer service workstation, buyer's workstation, warehouse management, forecasting, wholesaler interface, e-business, customer relationship management, and financial management. The Axapta - OSVE industry specific functionality meets the business requirements for the following Office Supply Distributors; Office Product Dealers, Office Equipment and Furniture, Books & Periodicals, Computer Equipment & Peripherals and Janitorial /Sanitation.

"MBS Dev became a Microsoft Axapta ISV partner to deliver Axapta - OSVE giving Office Supply Distributors another choice for their enterprise system," said Steve Guillaume, Vice President of Product Development at MBS Dev. "We can now offer these distributors a tier-1 solution at the price competitive with a niche software competitor. Our Axapta - OSVE offers new technologies with full industry specific functionality required to run their business."

"We're committed to supporting our ISV partners in their initiatives to provide industry specific solution sets," said Michael Shoemaker, Business Solution specialist at Microsoft. "By working with companies such as MBS Dev we are able to better meet the vertical needs of our joint customers."
