

Taxapta™

AFFORDABLE TAX SOFTWARE FOR MICROSOFT AXAPTA™

Sales and Use Tax Calculator/Accumulator

Sales-driven businesses require current sales and use tax rates and accurate tax calculations for their financial systems. Maintaining ever changing tax rates is a time-consuming task, often overwhelming the assigned employee.

MBS Dev, Inc. has developed a system-level interface between Microsoft Axapta® and a proven sales/use tax solution provider, Independent Systems.

Take the guesswork out of sales and use tax calculation: We solve your sales and use tax problems with our sales and use tax solutions.

With Taxapta™ maintaining lines of communication with over 9,000 taxing authorities, covering over 45,000 cities across the country, keeps our tax rate databases updated with the most recent rates for all states.

The Taxapta™ Calculator/Accumulator handles all of the intricacies of sales and use tax calculation. Taxapta™ allows businesses to leverage expertise for tax calculations throughout North America including the entire U.S. and Canada.
